Admission Procedure and Facilities Provided to International Students

Admission of international students is undertaken in strict compliance with the rules, regulations, and guidelines prescribed by the affiliating University, as well as the relevant statutory and regulatory authorities. The institution ensures that the entire admission process is conducted in a systematic, transparent, and accountable manner, maintaining high academic standards and full regulatory compliance.

All applications received are carefully scrutinized by the designated Admission Committee constituted by the institution. The Committee evaluates each application based on the prescribed eligibility criteria, academic qualifications, equivalency norms (where applicable), and other relevant parameters to ensure that candidates meet the required standards. Only those applicants who fulfil the eligibility criteria and comply with the documentation requirements are considered for further processing.

Eligible candidates are issued a provisional offer of admission, subject to verification of original documents at the time of reporting, compliance with visa and immigration formalities as per Government of India regulations, and payment of the prescribed tuition fees and other charges within the stipulated timeframe. The institution ensures that all procedures are aligned with University norms and statutory requirements to safeguard transparency and fairness.

Final confirmation of admission is granted only after successful verification of original credentials, fulfilment of all regulatory requirements, and formal approval from the competent authority of the University. Through this structured and regulated process, the institution ensures academic integrity, compliance with legal provisions, and a smooth admission experience for international students.
